1. PRODUCT AND COMPANY IDENTIFICATION

Company
Arkema Inc.
900 First Avenue
King of Prussia, Pennsylvania 19406
Thio and Fine Chemicals

Customer Service Telephone Number: (800) 628-4453
(Monday through Friday, 8:30 AM to 5:30 PM EST)

Emergency Information
Transportation: CHEMTREC: (800) 424-9300
(24 hrs., 7 days a week)
Medical: Rocky Mountain Poison Center: (866) 767-5089
(24 hrs., 7 days a week)

Product Information
Product name: VULTAC ® 5
Synonyms: Blend- Calcium Silicate, Amyl Disulfide Polymer
Molecular formula: (C11H16O.Cl2S2)x
Chemical family: Polysulfide
Product use: Vulcanization agent

2. HAZARDS IDENTIFICATION

Emergency Overview
Color: brown
Physical state: solid
Form: powder
Odor: phenol-like

Potential Health Effects
Primary routes of exposure:
Inhalation and skin contact.

Signs and symptoms of acute exposure:
Mechanical irritation effects from dust exposure are possible at ambient temperature.

Skin:
No more than slightly toxic. Non-irritating. (based on components)

Inhalation:
No more than slightly toxic. (based on components)

Eyes:
Practically non-irritating. (based on components)

Ingestion:
Practically nontoxic. (based on components)

Repeated exposure:
Data for a component: Prolonged or repeated exposure may cause: A benign dust induced lung condition, without impairment of lung function. (dust)

3. COMPOSITION/INFORMATION ON INGREDIENTS

This material is classified as hazardous under Federal OSHA regulation.

The substance(s) marked with a "Y" in the Hazard column above, are those identified as hazardous chemicals under the criteria of the OSHA Hazard Communication Standard (29 CFR 1910.1200).

While this material is not classified as hazardous under Federal OSHA regulations, this MSDS contains valuable information critical to the safe handling and proper use of this product. This MSDS should be retained and available for employees and other users of this product.

4. FIRST AID MEASURES

Inhalation:
If inhaled, remove victim to fresh air.

Skin:
In case of contact, immediately flush skin with plenty of water. Remove material from clothing. Wash clothing before reuse. Thoroughly clean shoes before reuse.

Eyes:
Immediately flush eye(s) with plenty of water.

Ingestion:
If swallowed, DO NOT induce vomiting. Get medical attention. Never give anything by mouth to an unconscious person.

5. FIRE-FIGHTING MEASURES

Flash point: Not determined
Auto-ignition temperature: Not determined
Lower flammable limit (LFL): Not determined
Upper flammable limit (UFL): Not determined

Extinguishing media (suitable):
water spray, Carbon dioxide (CO2), Foam, Dry chemical

Protective equipment:
Fire fighters and others who may be exposed to products of combustion should wear full fire fighting turn out gear (full Bunker Gear) and self-contained breathing apparatus (pressure demand / NIOSH approved or equivalent).

Further firefighting advice:
Fire fighting equipment should be thoroughly decontaminated after use.

Fire and explosion hazards:
When burned, the following hazardous products of combustion can occur:
Carbon monoxide
Carbon dioxide (CO2)
sulfur oxides

6. ACCIDENTAL RELEASE MEASURES

In case of spill or leak:
Spills should be contained and placed in suitable containers for disposal. Sweep up and shovel into suitable containers for disposal. Consult a regulatory specialist to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinent environmental permits.

7. HANDLING AND STORAGE

Handling

General information on handling:
Handle in accordance with good industrial hygiene and safety practices. These practices include avoiding unnecessary exposure and removal of material from eyes, skin and clothing.

Storage

General information on storage conditions:
This material is not hazardous under normal storage conditions; however, material should be stored in closed containers, in a secure area to prevent container damage and subsequent spillage.

Storage incompatibility – General:
Store separate from: Strong oxidizing agents

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Airborne Exposure Guidelines:

Silica (7631-86-9)
US. OSHA Table Z-3 (29 CFR 1910.1000)

<table>
<thead>
<tr>
<th>Time Weighted Average (TWA):</th>
<th>20 millions of particles per cubic foot of air</th>
</tr>
</thead>
<tbody>
<tr>
<td>Time Weighted Average (TWA):</td>
<td>0.8 mg/m³</td>
</tr>
</tbody>
</table>

Remarks: The exposure limit is calculated from the equation, $80/(\%\text{SiO}_2)$, using a value of 100% SiO₂. Lower values of % SiO₂ will give higher exposure limits.

Only those components with exposure limits are printed in this section. Limits with skin contact designation above have skin contact effect. Air sampling alone is insufficient to accurately quantitate exposure. Measures to prevent significant cutaneous absorption may be required. Limits with a sensitizer designation above mean that exposure to this material may cause allergic reactions.

**Engineering controls:**
Investigate engineering techniques to reduce exposures below airborne exposure limits or to otherwise reduce exposures. Provide ventilation if necessary to minimize exposures or to control exposure levels to below airborne exposure limits (if applicable see above). Provide ventilation if necessary to control exposure levels below airborne exposure limits (see above). If practical, use local mechanical exhaust ventilation at sources of air contamination such as open process equipment.

**Respiratory protection:**
Where airborne exposure is likely or airborne exposure limits are exceeded (if applicable, see above), use NIOSH approved respiratory protection equipment appropriate to the material and/or its components. Consult respirator manufacturer to determine appropriate type equipment for a given application. Observe respirator use limitations specified by NIOSH or the manufacturer. For emergency and other conditions where there may be a potential for significant exposure or where exposure limit may be significantly exceeded, use an approved full face positive-pressure, self-contained breathing apparatus or positive-pressure airline with auxiliary self-contained air supply. Respiratory protection programs must comply with 29 CFR § 1910.134.

**Skin protection:**
Minimize skin contamination by following good industrial hygiene practice. Wearing protective gloves is recommended. Wash thoroughly after handling.

**Eye protection:**
Use good industrial practice to avoid eye contact.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Specific Gravity (Relative density): 1.435 (77 °F( 25 °C))
Bulk density: 0.3 kg/l
Vapor pressure: not applicable
Vapor density: not applicable
Boiling point/boiling range: not determined
Freezing point: not determined
Melting point/range: not determined
Solubility in water: Negligible
% Volatiles: 0 %

10. STABILITY AND REACTIVITY

Stability:
This material is chemically stable under normal and anticipated storage, handling and processing conditions.

Materials to avoid:
Strong oxidizing agents

Conditions / hazards to avoid:
Avoid dust formation.

Hazardous decomposition products:
No decomposition if stored normally.

11. TOXICOLOGICAL INFORMATION

Data on this material and/or its components are summarized below.

Data for Phenol, 4-(1,1-dimethylpropyl)-, polymer with sulfur chloride (S2Cl2) (68555-98-6)

Acute toxicity

Oral:
Practically nontoxic. (rat) LD50 = 6,000 mg/kg.

Dermal:
No more than slightly toxic. (rabbit) LD50 > 2,000 mg/kg.

Skin Irritation:
Non-irritating. (rabbit) 0.0/8.0. (4 h)

**Eye Irritation:**
Practically non-irritating. (rabbit) 0.7/110.

**Human experience**

**Skin contact:**
Slightly irritating.

**Data for Silica (7631-86-9)**

**Acute toxicity**

**Oral:**
Practically nontoxic. (rat) LD50 > 5,000 mg/kg.

**Dermal:**
Practically nontoxic. (rabbit) LD50 > 5,000 mg/kg.

**Inhalation:**
No deaths occurred. (rat) 4 h LC0 >= 2.08 mg/l.

**Skin Irritation:**
Non-irritating to slightly irritating. (rabbit) Irritation Index: 0 - 2/8.0. (4 h)

**Eye Irritation:**
Non-irritating. (rabbit) OECD Test Guideline 405

**Repeated dose toxicity**
Repeated inhalation administration to rat / affected organ(s): lung, lymph nodes / signs: inflammation / No adverse systemic effects reported. (Local effects, reversible)

Repeated dietary administration to rat / No adverse systemic effects reported.

**Carcinogenicity**
Chronic dietary administration administration to rat and mouse / affected organ(s): lung / No increase in tumor incidence was reported.

Classified by the International Agency for Research on Cancer as: Group 3: Unclassifiable as to carcinogenicity in humans.

**Genotoxicity**

**Assessment in Vitro:**
No genetic changes were observed in laboratory tests using: bacteria, animal cells, human cells, yeast

**Genotoxicity**

**Assessment in Vivo:**
No genetic changes were observed in laboratory tests using: rats

**Developmental toxicity**
Exposure during pregnancy. oral (rat, rabbit, hamster, mouse) / No birth defects were observed.

**Other information**
Information given is based on data obtained from similar substances.
Human experience
Inhalation:
Respiratory system: No increase in tumor incidence was reported. No significant impairment of lung function.
(based on reports of occupational exposure to workers)

Data for Sulfur (7704-34-9)

Acute toxicity
Oral:
Practically nontoxic. (rat) LD50 > 5,000 mg/kg.

Dermal:
No more than slightly toxic. (rabbit) LD50 > 2,000 mg/kg.

Inhalation:
Practically nontoxic. (rat) 4 h LC50 > 9.23 mg/l.

Skin Irritation:
Slightly irritating.

Eye Irritation:
Moderately irritating.

Skin Sensitization:
Repeated skin exposure. (guinea pig) No skin allergy was observed

Repeated dose toxicity
Subchronic Inhalation administration to rat / signs: reduced body weight

Genotoxicity

Assessment in Vitro:
No genetic changes were observed in laboratory tests using: bacteria

Human experience
Inhalation:
Respiratory disorders, chronic bronchitis. (dust)

Human experience
Skin contact:
Erythema. (repeated or prolonged exposure)

Human experience
Eye contact:
Dust and/or vapor are reported to cause irritation when proper industrial hygiene controls/procedures are not used.

12. ECOLOGICAL INFORMATION

Chemical Fate and Pathway
Data on this material and/or its components are summarized below.
Ecotoxicology
Data on this material and/or its components are summarized below.

Data for Sulfur (7704-34-9)

Aquatic toxicity data:
Practically nontoxic. Gambusia affinis (Mosquito fish) LD50 = 10,000 mg/l
Practically nontoxic. Fish LOEC between 1,600 - 10,000 mg/l (Colloidal suspension)
Practically nontoxic. Oncorhynchus mykiss (rainbow trout), Bluegill sunfish 96 h LD50 > 180 mg/l

Aquatic invertebrates:
Practically nontoxic. Daphnia magna (Water flea) 48 h LD50 > 5,000 mg/l
Practically nontoxic. Mysid shrimp 48 h LD50 > 736 mg/l

13. DISPOSAL CONSIDERATIONS

Waste disposal:
Where possible recycling is preferred to disposal or incineration. If recycling is not an option, incinerate or dispose of in accordance with federal, state, and local regulations. Consult a regulatory specialist to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinent environmental permits. Note: Chemical additions to, processing of, or otherwise altering this material may make this waste management information incomplete, inaccurate, or otherwise inappropriate. Furthermore, state and local waste disposal requirements may be more restrictive or otherwise different from federal laws and regulations.

14. TRANSPORT INFORMATION

US Department of Transportation (DOT): not regulated
International Maritime Dangerous Goods Code (IMDG): not regulated

United States – Federal Regulations

SARA Title III – Section 302 Extremely Hazardous Chemicals:
The components in this product are either not SARA Section 302 regulated or regulated but present in negligible concentrations.

SARA Title III - Section 311/312 Hazard Categories:
No SARA Hazards

SARA Title III – Section 313 Toxic Chemicals:
SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) - Reportable Quantity (RQ):
The components in this product are either not CERCLA regulated, regulated but present in negligible concentrations, or regulated with no assigned reportable quantity.

OSHA Regulated Carcinogens (NTP, IARC, OSHA Listed):

NTP:
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

IARC:
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA:
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.
